

Professor D.D. Sarma from India visited SACLA/SPring-8

August 27, 2014

RIKEN SPring-8 Center (RSC) welcomed Prof. D.D. Sarma, a professor and chairman of Solid State & Structural Chemistry Unit of Indian Institute of Science.

Place: SACLA Experimental Facility
RSC, Hyogo, Japan

He presented a talk, entitled “Probing buried layers with high energy photoemission” at Kamitsubo Hall in the Main Building in the morning. After the seminar, Dr. Chainani gave a tour of SPring-8 with special focus on BL17SU, Coherent Soft X-ray Spectroscopy Beamline. Then Dr. Katayama guided a tour of SACLA facility, including the tunnel.
