

A group of RIKEN and MPI visited SACLA/SPring-8
May 13, 2015

RIKEN SPring-8 Center (RSC) welcomed a group of RIKEN and MPI (Max-Planck-Institut) for the biological and chemical biological researches.

PLACE: Entrance of the SACLA Experimental Facility

RSC, Hyogo, Japan

Dr. Ishikawa gave a lecture on facility overviews of SPring-8 and SACLA. After the lecture, Dr. Tono guided a tour of the SACLA facility. Dr. Hirata then gave a tour of SPring-8 with a special focus on BL 32 XU (Targeted Proteins Beamline).
